MEMORIAL
LIBRARY

SECOND EDITION, REVISED & ENLARGED

COMPILED BY

PHYLLIS M. SMITH, B.A., B.L.S.
LIBRARIAN

1978

F O R W A R D

This new edition of the Rare Books Catalogue is a cumulation of the original edition of 1966, with an additional 348 books, monographs and pamphlets, and 48 Manufacturers' Catalogues for a present total of 796 books and 169 of these catalogues.

The year 1915 has been the date for the inclusion of the material in this collection. Some, which post-date this, are included since they are, or will be, valuable, and are out of print.

All Manufacturers' Catalogues are part of this collection, regardless of date.

The foundation of this collection was laid in April, 1897 when Dr. J. P. Marshall and Dr. W. A. Brownlee, who were members of the Board of the Royal College of Dental Surgeons of Ontario at that time, were instrumental in persuading the College to purchase the personal library of the late Dr. George W. Beers of Montreal, which contained some 600 books and many journals. In 1919, Dr. Walter E. Willmott added to it by presenting the collection of books and journals of his father, Dr. James Branston Willmott, first Dean of the Dental College.

A C K N O W L E D G M E N T S

We acknowledge with gratitude the grant received from the Women's Auxiliary of the Toronto Chapter of the Alpha Omega Fraternity which made the publication of this new catalogue possible.

Thanks are due also to the Royal College of Dental Surgeons of Ontario for the provision of extra funds for the purchase of most of the material in this collection.

The thoughtfulness of many others in donating their own books is deeply appreciated, and has added greatly to the interest and value of this section of the Library.

Phyllis M. Smith,
Faculty Librarian

THE RARE BOOKS COLLECTION

J. B. WILLMOTT,
SURGEON DENTIST,
MILTON.

Having opened an Office on Main Street, nearly opposite the "New Era" Office, I take this means of informing those who may require the services of a Dentist, that I am prepared to perform all operations belonging to my profession in such a manner as to give entire satisfaction.

By the timely insertion of a proper filling by a skilful Dentist, decayed teeth may be restored to health, and preserved through life, thus preventing a vast amount of suffering.

ARTIFICIAL TEETH inserted on Vulcanized Rubber, and on Gold or Silver Plates, so as scarcely to be detected from the natural organs. Teeth extracted with the least possible pain.

I will visit DUNDAS, on the Wednesday and Thursday, and OAKVILLE, on Friday and Saturday following the first Monday in each Month; and WATERDOWN, on Friday following last Monday in each Month.

Rooms in Dundas — ELGIN HOUSE; Oakville — CANADIAN HOTEL; Waterdown — ANDERSON'S HOTEL.

J. B. WILLMOTT.

MILTON, Sept., 1860.

Handbill of Dr. James Branston Willmott,
First Dean of the Dental School,
Toronto, Ontario
